

KEENCUT

THE WORLD'S FINEST CUTTING MACHINES

EVOLUTION E2

The new Keencut Evolution-E2 is an integrated wide format cutting system designed to revolutionise the speed, accuracy and convenience of the finishing process. Intended to fit any bench the all new Evolution-E2 shares the same outstanding 1:15000 straightness accuracy guarantee of the first generation Evolution and the world renowned Javelin Xtra cutter bar.

The unique four piece cutter slideway and torsion bar extrusion combines with the full length base plate to create a cutting machine that will meet the challenges of the most demanding operator and enhance valuable artwork.

The integral lift and hold mechanism of the new Evolution-E2, operable from either end, ensures consistent straightness even under flex, while the swingover and under-bench stowaway facility provides maximum working convenience and space efficiency. The built-in textile cutting track and textile cutting attachment (included) add the final refinements to the most versatile, accurate and simple to use wide format cutting system ever.

Available in five practical sizes, from 1.6 to 3.6 metres, the Evolution-E2 has been created to handle the output of every size and type of roll feed or flatbed printer with the capability to cut materials as diverse as flag, banner, card, PVC Foamboard, foamcore and much more.

SIZES

1.6M - 64"
2.1M - 84"
2.6M - 104"
3.1M - 124"
3.6M - 144"

CUTS UP TO 10MM

PVC Foamboard, Pop-up Banners, Foam-Centred Board, Corrugated Plastics, Fabric & Textiles, Acrylic, Banner, And much more...

All Keencut products are 100% Manufactured by Keencut Technicians in Corby, England. 99.998% of source materials are made in the UK and EU

Buy with confidence
Keencut machinery comes with a 5 Year Guarantee

- ✓ Reversible blades ideal for left-handed and right-handed operators
- ✓ Equipped with two-way cutting & all new quick-fit accessory options
- ✓ Full length Lift & Hold from either end for easy loading and positioning
- ✓ Switchable cutting tracks for general purpose and textile cutting
- ✓ The new large diameter textile wheel improves performance and longevity
- ✓ Integral extruded alloy cutting base adjustable for flatness and straightness
- ✓ Unique 4-section extrusion maintains close straightness even under flex
- ✓ Total dust free operation, can go where it is most useful
- ✓ Mounts to most bench surfaces via a series of brackets that are designed to optimise alignment & clamping
- ✓ Size, capability, versatility and scope to handle every cutting task in every printing and graphics workshop

0.2mm Guaranteed Accuracy
That's 1:15000 Guaranteed Cutting Straightness!

Ideal for Pop-Ups

Flip over sub bench parking provides full unobstructed bench surface
